

EX-CHIEFS OF ARIZONA WILL BE AT DINNER

Governors of Territory Invited as Specially Honored Guests to Arizona Day Banquet — Preparations for Celebration

In an effort to have present at the Arizona Day banquet Friday night every living ex-governor of the territory of Arizona, the reception committee will spare no pains at all. With the exception of Ex-Governor Alexander O. Brodie, all the ex-governors now living in Arizona can be present at the banquet.

One of the ex-governors, Judge Kibbey, will be the central figure at the Arizona club's celebration of Arizona day. At high noon all members of the club will assemble in the dining room, and drink to Arizona, a toast fashioned by that admirable smith of good wishes, the president of the club.

Judge Kibbey, Judge R. E. Sloan, L. C. Hughes and C. M. Zolick are the four who may be on hand when the reminiscences are uncorked at that Arizona day dinner. Governor Brodie will not be able to be present, but it is pretty sure that Sloan, Hughes and Kibbey can come. The dinner will not be the only way that Arizona will celebrate the fiftieth anniversary of the birth of the territory. At noon gatherings of all sorts in every part of the state will pause in their work or play and pay a tribute to the memory of those who made the first territorial government. As the hour of noon approaches some will give resounding cheers for the name of Arizona. Others will listen to inspiring speeches, while still others will drink healths with much ceremony on the side. Schools will aid in the celebration, lodges, clubs, associations, groups in hotels, everywhere the people will halt on their busy course to do hon-

THE POPULAR

THERE are many varieties of good corsets made. Now it is up to us to select from these varieties what we consider the best for our trade.

We picked out Henderson and La Princesse Corsets, and our judgment has been heartily endorsed by our patrons. In fit, comfort, style-effect, and service, we doubt if you will be able to find better models than these.

Once you wear a Henderson or La Princesse Corset, you'll never be satisfied with the ordinary kind again.

All styles—front and back laced—for all figures at moderate prices.

We'd like to have you see the new designs that are now on exhibition at our Corset Department.

STOP FIRING! THERE'S A MINSTREL SHOW HERE

Y. M. C. A. Thinks U. S. Should Postpone Whipping Mexico Until After Performance

War may be all that a certain fighting person named Sherman said it was. However, there are persons in Phoenix who hold that there are some things of much more importance.

One of these things is a minstrel show. The show which the Y. M. C. A. minstrel troupe plans to give on May 11 and 12 was arranged before the Y. M. C. A. officials were notified that Huerta would not salute unless there was a gun-for-gun reply.

Now that it appears that the war will continue right through the dates on which the show have been set, the Y. M. C. A. minstrel men have sent the following telegram to President Wilson—that is, they have written the telegram and may send it:

April 22, 1914.
President Wilson,
White House, Washington, D. C.
"Three you to postpone war with Mexico until after Y. M. C. A. minstrel May 11 and 12. Important Arizona militia officer in cast. Independent."

Y. M. C. A. MINSTREL TROUPE
Collect."

or to the name of their great state.
News From Front

The latest news from the front will be one of the many features of the Arizona Day banquet wireless and telegraph bulletins will be received every few minutes.

There will be tables for special parties and groups of friends will get together to celebrate Arizona's advent of fifty years ago.

Efforts to have the next battleship named "Arizona" are being made. It is hoped by Friday at the banquet the announcement can be made officially. The decorations will be more elaborate than ever. A large corps of ladies will be at work Friday afternoon getting the decorations in shape. Thousands of roses will be used and some delightful surprises are promised.

A great number of the workers are getting plans for gathering these flowers in time for the occasion. Telegrams are coming as well as letters telling of the Arizonians who are to attend. There will be representatives from every section of the state and every official part of the state's government will be present in the person of some official.

Every political party will see that its leaders are on hand to keep in touch. The stories of what was fifty years ago leading up to today, will be heard and also there will be brought out what is wanted for the future.

It is not every citizen that is privileged to join in a celebration of this sort. Few citizens indeed can join in more than one, and once in fifty years should not be overlooked by any Arizonian.

The ticket committee is busy. Clubs are planning to attend in large bodies. The toast to Arizona at 12 noon on Friday should be joined in by everyone, drink it in whatever you will but let it be to Arizona and then three cheers.

One man on Wednesday stated he had come 200 miles to join in that toast to "Dear Old Arizona" and would not miss it and the Arizona Day Banquet for worlds.

FIFTH KATHLYN PICTURE FINALLY REACHES CITY

Delayed Shipment of Last Installment Published in The Republican Reaches Phoenix

The fifth picture of the Kathryn series will be shown at the Empress theater tonight. This is the picture that corresponds to the installment of the story that appeared in The Republican last Sunday. Its subtitle is "The Royal Slave" and is one of the most exciting of all the pictures thus far.

The Kathryn pictures are among the finest serials in the moving picture world. The scenario for the films was written by Harold McGrath and has been staged by the Selig company at their immense outdoor studios at Los Angeles. A well equipped zoo is maintained there by the company especially for pictures of this kind. Miss Kathryn Williams, who plays the star part in the series, is one of the most eminent actresses in the United States.

MARIE GREEN SHOT THRICE BUT ISN'T MUCH HURT

Well Known Colored Woman Attacked By Man Who Escapes

Marie Green, a well known colored woman, who has been under arrest untold numbers of times, had the closest call of her life last night, when a colored man, supposed to be Charles Henderson, attacked her at her home on Madison and First Streets and shot her three times. None of the bullets caused dangerous wounds and the woman was given lodging at the police station after she had received attention from Dr. H. K. Beauchamp.

Earlier in the day a man supposed to have been Henderson, called at the woman's house and demanded admittance. He was repulsed and went away vowing he would return. About nine o'clock while she was seated in her room four shots were fired through an open window, three of which took effect. One passed through her right thigh, another through her right hand and the third cut a deep scalp wound.

About the time of the shooting a colored barber rushed into the police station and said that another colored man had stolen his thirty-eight caliber revolver and had rushed away armed with the weapon. His description answered that of Henderson.

The police were unable to locate Henderson despite careful search.

HEADLIGHT MATTER AGAIN BEFORE A. C. C.

Testimony Taken Before Commission, Order Will Issue Later

The corporation commission yesterday had the old matter of the locomotive headlight up for investigation again, and representatives of the railroads and labor organizations were present before the commission giving testimony relative to the 1500 candle power headlight that was prescribed by the legislature in the law recently declared unconstitutional by the supreme court.

M. J. Clancy, representing the Southern Pacific system, Leroy Anderson, representing the United Verde and Niel E. Bailey of the United Verde railway, while the engineers, firemen and trainmen were all represented.

It has been the contention of the railroads that the headlight prescribed in the law, showing a light of 1500 candle power strength is entirely too strong, while it was contended a time the law was passed that it carried the approval of the organizations of railway workers.

The commission got no farther than the taking of testimony. This will later be transcribed and after having been studied by the commission an order in the matter will be issued.

WALTER COOL LIKES PHOENIX VERY MUCH

Walter Cool, of Denver, Colo., who is manager of district number ten of the sales division of the National Cash Register company, is a visitor to Phoenix at this time the guest of Mr. and Mrs. Fred P. Webber. Mr. Cool has been with the company for twenty-eight years and sold cash registers in the early days in this state.

Mr. Cool expressed himself as being delighted with the growth and general condition of the city and valley. Always a booster for this section, he found more here this time to attract his attention and interest than upon any previous visit. Mr. Cool expects to bring his wife with him next fall when he comes here and Mrs. Cool will spend the winter in Phoenix.

MEETING OF M. & M. AT BOARD OF TRADE

Interesting Discussions Before Large Membership of Organization

The meeting of the Merchants & Manufacturers' association last evening at the Board of Trade was one of great interest and value. P. T. Slayback, member of the executive committee of the association, presided.

H. D. Marshall, Jr., talked in a most interesting manner on the quite general practice of issuance of checks without funds in bank equal to the amount of the check. He cited the three causes usually apparent leading to the carrying out of the practice, and explained the efforts of the bank to eliminate it. He urged the merchants to be more careful in their acceptance of checks, and to spread the news of co-operation to their fellow merchants in backing up the efforts of the bank and the Merchants & Manufacturers' association in putting a stop to this condition of affairs so far as possible at this time and in securing proper legislation at the next session of the legislature.

F. R. Lyman dealt with the legal side of the proposition. He told of the difficulty under the present law in securing conviction of offenders, and offered many valuable suggestions as to the form of legislation required to fully solve the situation. He noted the good that the association was doing in their activities along this line, not only from a standpoint of proposed legislation but in giving encouragement to the officials in their efforts at conviction of the cases which come before them. He urged that when prosecution had once been started it be not dropped or compromised but pushed to final conclusion.

Chas. A. Stauffer explained the efforts of newspapers throughout the country toward advertising based only upon truthful and correct facts and statements, citing the demands in all lines of business for a higher and better principles of operation. He gave many interesting suggestions to the members for their preparation for the advertising copy, naming truth, simplicity and news as the most productive of results.

W. L. Pinney urged the spirit of co-operation upon all matters looking toward the improvement of the city and valley. As chairman of the membership committee he reported the recent increase in membership by accepting Glendale merchants as members of the Merchants & Manufacturers' association of Phoenix, and asked that all members make an effort toward the securing of additional members in Phoenix.

Prof. McOmie of the University of Arizona appeared before the meeting in the interest of agricultural clubs among the younger generation of farmers. He explained the plans of the school for the encouragement of better farming, and asked the co-operation of the merchants in bringing about those results. This matter was referred to the board of governors for consideration.

station and said that another colored man had stolen his thirty-eight caliber revolver and had rushed away armed with the weapon. His description answered that of Henderson.

The police were unable to locate Henderson despite careful search.

COMMISSION STARTS MODERN BALL ROLLING

Take First Steps to Secure Garbage Incinerator, Fire Apparatus, Drinking Fountains and Public Toilets

First steps were taken at the meeting of the city commission last evening for the installation of a municipal garbage incinerator, the establishment of public toilets and drinking fountains, the extension of the scope of the fire employment bureau and the equipping of the fire department with modern and adequate apparatus as well as the extension of the present fire alarm system and the remodeling of the central fire station at First and Jefferson streets. An ordinance was adopted making it a misdemeanor to allow rubbish to accumulate upon city lots, vacant or improved, giving the manager authority to clean up neglected city property and assess the costs against the property, the same to become a lien until paid.

It was not a long meeting but the expedition with which the business in hand was carried out, permitted a comparatively early adjournment notwithstanding there was a host of business. Because of the failure of some of these whose presence was necessary to the conduct of business, to be on hand at 8 o'clock, thereby holding up convening until a half hour later, Mayor Young took occasion to urge prompt attendance at meetings of the commission. He said that the tardiness of one or two workers hardships upon the others, and that as for himself his time was too valuable to be asked to spend it sitting round the city hall waiting for others. He even threatened in the future to wait no longer than fifteen minutes after the hour set for convening, after which he would absent himself. He said that this applied to officers of the commission as well as to the commissioners themselves.

The most profound sensation came with the reading of a proposed resolution making it a rule that any city employee drinking intoxicating liquors at any time during business hours or while engaged in the performance of any service to the city, shall be subject to dismissal and calling upon the city manager to take all necessary steps to enforce the rule laid down. This resolution was adopted without argument.

Manager Farish presented a report covering many important branches of the city affairs and appended thereto a recommendation for the purchase of adequate fire apparatus to be located in the new buildings now in the course of construction at Five Points and the water works property, as well as in the central building. This recommendation also provided for the remodeling of the central station, the installation of new apparatus and the extension of the fire alarm system. Approximately these recommendations if carried out would cost the city \$50,000.

Incidentally, Manager Farish announced the appointment of Joseph P. Kehoe as city scaler of weights and measures, and George S. Foster as city engineer.

He also announced that citizens owning suitable teams are being given preference in the street work, a policy which he intends to follow out in all the departments.

The Piper popcorn wagon controversy was again brought up and after more discussion was held over until the next meeting.

Woods and Corstine were named to investigate the request of the Arizona Eastern for a spur privilege across Sixth and Seventh avenues. An ordinance authorizing the offering for sale of the interest of the city in the West End school block for a sum not less than \$10,000 was adopted.

The present library board, consisting of H. C. Yeager, J. W. Crenshaw, A. K. Stahler, Andrew Downing and Simon Oberfelder, was reappointed.

Commissioners Cope and Foley and the manager were named to investigate the possible locations for public drinking fountains, and Commissioners Corstine and Woods were named to investigate the construction of additional city toilets. The entire commission, together with the manager, the health officer and C. H. Corrigan were named to investigate the possible installation of a garbage incinerator.

H. Flury presented a petition from the unemployed asking that the public employment bureau be removed to a more desirable location than the city hall building, that steps be taken to abolish other employment agencies and that Manager Wolf of the city employment bureau be placed in charge of a municipal employment department and given an assistant and means of advertising his department.

A protest against the division of the public land office will be made to Congressman Hayden under the terms of a resolution adopted, declaring it would not be good business to interfere with the Phoenix office which is efficiently and economically conducted.

Committee meetings are called for Friday and Saturday afternoons and the commission adjourned to next Tuesday evening.

NOT MUCH LOSS
"So your wife has eloped with your chauffeur?"
"Yes, but he wasn't much of a chauffeur."—Houston Post.

Writing an article entitled "Treasure in Books" in the April Woman's Home Companion, Laura Spencer Porter gives the following excellent advice about the advantages to be gained from the study of words:

"The study of words; it may sound to you a dry thing, yet I promise you it is not, very far from it. And this brings me to suggest that the habit of one of the great writers of studying carefully from a good dictionary five words each day is one from which we might all of us get a good deal of profit. Or, take a good book of synonyms, for instance, and learn from it each day five words somewhat similar, comparing and weighing carefully the meanings and values of them. Notice

the degrees of force in the following: to dislike, to hate, to loathe, to detest, to abhor—each note struck is a little stronger, higher, we might say, like an ascending crescendo scale. So, rebuke, reprimand, censure, blame are all of one color but of how different shades of meaning. So, too, misfortune, calamity, disaster; so, weak, feeble, decrepit; and what delicate difference between fame and renown or feminine and womanly and womanish."

USE YOUR DICTIONARY EVERY DAY

REAL IRONY OF FATE

At the Author's club in New York one evening, a number of members were swapping stories, when one told a tale, during the course of which he more than once used the term "irony of fate."

"That expression," remarked one of his listeners, "may well have fitted the emergency of your story, but I have a better one. Once, in San Francisco, when I was nearly down and out, I received a money order from home in the sum of \$40, and the only way who could identify me was one to whom I owed \$38."—Lippincott's Magazine.

QUEEN ELEONORA OF BULGARIA, WHO VISITS U. S. IN MAY, WILL BE FIRST REIGNING QUEEN EVER AT WHITE HOUSE

Left to right: Queen Eleonora, Mabel Boardman and Mrs. Wilson. Bottom, Mrs. W. J. Bryan.

When the czarina of the Bulgars, Queen Eleonora, visits America in May she will be the first reigning queen ever received at the White House, the first member of European royalty, in fact, to set foot upon American soil after accession to a throne. The queen, escorted by U. S. cavalry, will go to the White House to call officially upon President Wilson. During her stay she is sure to be entertained at dinner by the President and Mrs. Wilson.

It is likely, too, that the secretary of state and Mrs. Bryan will be dinner hosts to the queen. Inasmuch as Queen Eleonora is more interested in the Red Cross than in anything else, it is a certainty that she will confer with Miss Mabel Boardman, secretary of the American Red Cross, on American methods of organization, first aid and other relief work.
